MAKITA® TOOLS
WORLD LEADING
PRODUCT INNOVATION

For the full Makita offering, see www.wurthlac.com

Table of Contents

CORDLESS TOOL & ACCESSORIES

Multi-Tool Kits	4 - 6
Driver-Drills, Impact Drivers	7 - 11
Bits and Accessories	12 - 14
Routers	15
Sanders	16 - 17
Saws (Jig, Circular and Miter)	18 - 25
Planers	26 - 27
Oscillating Multi-Tool	28
Detail Belt Sander	29
Blower/Inflator	30
HEPA Vacuum	31
Lighting	32 - 33
Laser Kit	34

PNEUMATIC TOOLS

Stapler	35
Nailers (Pin, Brad and Finish)	36 - 39
Compressors	40 - 41

CORDED TOOLS

Routers	42 - 45
Sanders	46 - 49
Plunge Circular Saw	50
Miter Saw	51
Plate Joiner	52
Planers	53
Heat Gun	54

ACCESSORIES

Blades (Jig Saw, Circular and Miter)	55 - 59
Guide Rails and Accessories	60 - 61
Oscillating Multi-Tool Accessories	62 - 63
Batteries and Chargers	63
Work Gloves	64

Makita® Corporation was founded in 1915 as an electric motor sales and repair company. Today, as a global brand in over 40 countries, Makita® is an innovation leader, manufacturing best-in-class products at 11 plants operating in 9 countries. The unmatched quality and durability of Makita® products is driven by the company's strong R&D capabilities, and have earned the trust of professional users worldwide. Every day, on job sites around the world, Makita® delivers the power, performance and durability that professional users demand with products that are more compact, have less vibration and feel better.

World's First

1978 – Cordless Drill w/Removable Battery

1988 – Impact Driver

2003 – Slide Battery

2004 – Brushless Tool

2005 – 18v Lithium-Ion Platform

2014 – X2 Technology

2015 – Advanced Anti-Vibration Technology

2018 – Auto-Start Wireless System

WORLD'S LARGEST 18V™ LITHIUM-ION LINE-UP

HIGHEST OUTPUT + FAST CHARGER TIME

HIGH OUTPUT + FASTEST CHARGER TIME

Makita's commitment to the trades is evident in the size of their 18V Lithium-Ion Line-up - over 325 tools and growing!

	<p>AUTOMATIC SPEED CHANGE™</p> <p>Automatic Speed Change™ is technology that adjusts speed and torque for optimal performance, even in the most demanding applications. During operation, if the tool is put under heavy load, Automatic Speed Change™ detects the added demand and applies more torque and speed to finish the job. Makita cordless tools with Automatic Speed Change™ are engineered to deliver corded performance, without the cord.</p>
	<p>AVT® ANTI-VIBRATION TECHNOLOGY</p> <p>Anti-Vibration Technology (AVT®) is a counterbalance system inside the tool that significantly reduces vibration. The AVT® counterbalance design is based on seismic engineering, which developed this damping science to absorb shocks and protect buildings from earthquakes. AVT® uses a mechanical damper, effectively a counterbalance weight inside the tool, that provides an equal and opposite force that puts a mass directly opposite the point where the striker bolt delivers the impact. As vibration is eliminated, power is efficiently increased which allows more of the generated energy in the motor to be delivered to the tool bit. Makita also has an AVT® counterbalance system in select reciprocating saws. For users, AVT® means significantly less vibration with no compromise in power and performance.</p>
	<p>DXT™ DEEP AND EXACT CUTTING TECHNOLOGY</p> <p>Deep and Exact Cutting Technology (DXT) is a series of features that give Makita miter saws more cutting capacity and out-of-the-box accuracy for superior cutting performance. The innovative direct drive gearbox and guard system utilizes a portion of the back of the blade for significantly more vertical cutting capacity when cutting baseboard and nested crown molding. In addition, the direct drive gear box has no belts to slip or replace, so power is transferred more efficiently from the motor to the blade. The patented 4-steel rail sliding system with 6 linear ball bearings is engineered for minimal deflection for smooth, dead-on cuts for lasting accuracy, job after job.</p>
	<p>IMPACT XPS®</p> <p>Impact XPS® is Makita's premier line of bits and fastening accessories. Impact XPS® Bits are expertly engineered to withstand the hardest hitting impact drivers, drills and screwdrivers. The Impact XPS® Insert and Power Bits are designed with superior fitment, torsion zone technology and a unique steel composition for up to 100-times longer performance life than standard bits. The line also includes insert bit holders, magnetic nutsetters, sockets, and socket adapters for a full range of fastening applications.</p>
	<p>LXT® LITHIUM-ION SERIES</p> <p>Makita was the first to introduce 18V lithium-ion cordless tools. Today, the LXT System is the world's largest compatible 18V slide-style battery system with over 325 solutions. Makita's purpose-built motors, battery technology, and enhanced communications work together to deliver unmatched power, speed, and run time.</p>
	<p>LXT® SUB-COMPACT BRUSHLESS</p> <p>Makita® created a new class in cordless with 18V LXT® Sub-Compact Brushless tools. Makita® Sub-Compact tools are the most compact and lightest weight in the 18V category, so users get 12V handling with 18V compatibility. Sub-Compact tools use the same 18V batteries and chargers that work with over 325 solutions in the LXT® system.</p>
	<p>LXT® 36V (18V X2)</p> <p>Two 18V LXT® Lithium-Ion batteries deliver the power and run time for corded demands without leaving the 18V LXT® platform.</p>
	<p>MAGNESIUM</p> <p>Framers and carpenters need cutting solutions with power and performance – not extra weight. Makita circular saws with Magnesium components are engineered for less weight with superior balance and durability. Magnesium circular saws deliver consistent performance with less weight for cutting sheet and dimensional lumber.</p>
	<p>MAX EFFICIENCY</p> <p>Max Efficiency is new innovation in accessories with saw blades engineered for optimum performance when used with cordless saws. Max Efficiency blades have an ultra-thin kerf design and specially-engineered blade teeth to assist in reducing the load put on the tool while cutting for smoother material removal with less cutting resistance. The result is increased cutting efficiency and faster cutting over standard blades, and more cuts per charge over standard blades when used with a cordless saw. Max Efficiency Blades are available for use with circular saws, plunge circular saws, and miter saws.</p>
	<p>QUICK-SHIFT MODE™</p> <p>Precision fastening applications often require the user to stop or slow down the impact driver just prior to driving the screw into place to ensure there is no damage to the fastener or work piece. Quick-Shift Mode™ is the solution for precision fastening. Quick-Shift Mode™ is an automatic electronic controller that downshifts and reduces rotation and impact speed prior to driving the screw into place. It is engineered to minimize screw thread stripping, screw breakage and damage to work. Makita impact drivers equipped with Quick-Shift Mode™ are ideal for precision fastening applications, from cabinetry to solar panel installation, and more.</p>
	<p>STAR PROTECTION COMPUTER CONTROLS™</p> <p>Makita cordless tools are engineered for industrial applications, and for added protection during the most demanding jobs Makita created STAR Protection Computer Controls™. STAR is communications technology that monitors conditions during use, allowing the tool and battery to exchange data to protect against overloading, overdischarging and overheating. If STAR detects conditions that threaten to overload, overdischarge or overheat the tool or battery, the tool will automatically stop. At that time the user can either restart the tool, change or charge the battery, and put the tool back to work. When you slide a Makita 18V LXT® battery with the STAR symbol onto a Makita tool that has either the STAR symbol or a yellow terminal, you are benefitting from STAR Protection Computer Controls™.</p>
	<p>XPT™ EXTREME PROTECTION TECHNOLOGY</p> <p>When the job takes your Makita tool into harsh conditions, Makita Extreme Protection Technology (XPT™) provides added protection. XPT™ is a series of integrated seals engineered to channel away dust and water for increased durability. Wherever the job takes you, Makita tools equipped with XPT™ are engineered for increased durability and longer tool life.</p>

18V LXT® Sub-Compact Brushless 2 Piece Combo Kit

- Driver-Drill weighs only 2.9 lbs. with battery for reduced operator fatigue
- Mechanical variable 2-speed transmission (0-500 & 0-1,700 RPM) for a wide range of drilling and fastening applications
- Makita-Built Brushless Motor delivers 350 in.lbs. of Peak Torque
- Engineered with a metal jampot design for increased durability
- Impact Driver weighs only 2.6 lbs. with battery for reduced operator fatigue
- Assist Mode (A-mode) feature helps eliminate "screw cam-out" and "cross threading" by driving at low speed until impact begins
- Variable 2-speed Impact Driver (0-1,300/0-3,000 RPM & 0-2,000/0-4,100 IPM) for a wide range of fastening applications
- Makita-built Brushless Motor delivers 1,240 in.lbs. of Max Torque in an ultra compact design
- Ideal for work in tight spaces

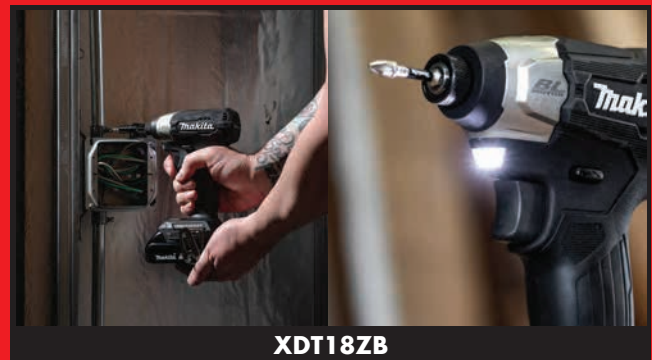

MKCX203SYB includes: 18V LXT® Sub-Compact Brushless 1/2" Driver-Drill (XFD15ZB), 18V LXT® Sub-Compact Brushless Impact Driver (XDT18ZB), 18V LXT® Lithium-Ion Charger (DC18SD), (2) 18V Compact Lithium-Ion Battery, Tool Bag

18V LXT® Brushless 2 Piece Combo Kit

MKXT269M includes: 18V LXT® Compact Brushless 1/2" Hammer Driver-Drill (XPH12Z), 18V LXT® Brushless Impact Driver (XDT13Z), (2) 18V LXT® Lithium-Ion 4.0Ah Battery (BL1840B), 18V LXT® Lithium-Ion Rapid Optimum Charger (DC18RC), Tool Bag

- Efficient BL™ Brushless motor is electronically controlled to optimize battery energy use for up to 50% longer run time per charge
- The BL™ Brushless Motor eliminates carbon brushes, enabling the BL™ Motor to run cooler and more efficiently for longer life
- The electronically-controlled BL™ Brushless Motor efficiently uses energy to match torque and RPM to the changing demands of the application
- Variable 2-speed 1/2" Hammer Driver-Drill (0-500 & 0-2,000 RPM) with BL™ Brushless Motor delivers 530 in.lbs. of Max Torque; weighs only 4.2 lbs. with battery
- Variable speed Impact Driver (0-3,400 RPM & 0-3,600 IPM) with BL™ Brushless Motor delivers 1,500 in.lbs. of Max Torque; weighs only 3.3 lbs. with battery
- Hammer Driver-Drill features Extreme Protection Technology (XPT™) which is engineered to provide increased dust and water resistance in harsh job site conditions

18V LXT® 10 Piece Woodworking Combo Kit

- Jig Saw delivers 0-2,600 strokes per minute for faster and more efficient cutting; weighs only 6.4 lbs. with battery for reduced operator fatigue
- Random Orbit Sander incorporates a large 1/8" random orbit action engineered for faster sanding and swirl-free finish
- Compact Router equipped with electronically-controlled Brushless Motor efficiently uses energy to match torque and RPM to the changing demands of the application
- Planer equipped with 2-blade cutterhead with double edge carbide blades for added performance and smooth finish
- Reciprocating Saw provides 0-2,800 SPM with "tool-less" blade changes and weighs only 8.3 lbs. with battery
- Job Site Radio is equipped with Bluetooth® to wirelessly connect your mobile device to play music while delivering rich stereo sound from two powerful 3.5" side-firing speakers
- Makita technology delivers category-leading charge time, so the battery spends more time working and less time sitting on the charger

MKXT1001SM includes: 18V LXT® Tools: Compact Brushless 1/2" Hammer Driver-Drill (XPH12Z), Impact Driver (XDT13Z), Circular Saw (XSS02Z), Jig Saw (XVJ03Z), Oscillating Multi-Tool (XMT03Z), Random Orbit Sander (XOB01Z), Palm Router (XTR01Z), 3-1/4" Planer (XPK01Z), Recipro Saw (XRJ04Z), and 18V LXT® / 12V max CXT® Bluetooth® Job Site Charger / Radio (XRM10), 18V LXT® Lithium-Ion 4.0Ah Battery, 2/pk (BL1840B-2), Tool Bag w/Wheels (831269-3)

Item #	Description	Battery & Charger Included	Ah	Price
MKXT1001SM	18V 10 Piece Woodworking Combo Kit	Yes	4.0	\$1,200.00

IMPACT DRIVER

Variable speed Impact Driver (0-3,400 RPM & 0-3,600 IPM) provides 1,500 in.lbs. of Max Torque

MULTI-TOOL

Variable speed control dial (6,000-20,000 OPM) enables user to match the speed to the application

HAMMER DRILL

Variable 2-speed 1/2" Hammer Driver-Drill (0-500 & 0-2,000 RPM) (0-7,500 & 0-30,000 BPM)

CIRCULAR SAW

6-1/2" Circular Saw delivers 3,700 RPM for faster cutting and ripping through wood

18V LXT® Brushless Quick-Shift Mode™ 3-Speed Impact Driver

- Tightening Mode (T-mode) for faster tightening of self-drilling screws; helps prevent damage to the screw or workpiece
- 3-speed power selection switch (0-1,100 / 0-2,100 / 0-3,600 RPM & 0-1,100 / 0-2,600 / 0-3,800 IPM) provides precise fastening control for a wide range of applications
- Weighs only 3.3 lbs. with battery (battery not included) for reduced operator fatigue
- All metal gear housing for increased job site durability
- Convenient one-touch 1/4" hex chuck for quick bit changes
- Dual L.E.D. lights with an independent on/off switch illuminate the work area
- Makita's proprietary hammer and anvil impact mechanism is manufactured using the best raw materials with the highest quality steel and unique heat hardening process for maximum fastening and driving power

MKXDT14Z includes: Tool only.

Item #	Description	Battery & Charger Included	Variable Speed	Impacts per Minute	Price

18V LXT® Brushless Quick-Shift Mode™ 4-Speed Impact Driver

MKXDT19T

- Quick-Shift Mode™ uses the brushless motor's electronic controls to find the best balance of speed and torque for each application for more efficient fastening
- 4-speed power selection (0-1,100/ 0-2,100/ 0-3,200/ 0-3,600 RPM & 0-1,100/ 0-2,600/ 0-3,600/ 0-3,800 IPM) provides precise fastening control for a wide range of applications
- Additional one-touch 4-speed power selector button under the chuck for added convenience
- Designed with dual ball bearing chuck to reduce bit wobble and run out
- Built-in L.E.D. lights on both sides helps eliminate shadows and illuminate a larger area
- Convenient one-touch 1/4" hex chuck for quick bit changes
- All metal gear housing for increased job site durability
- Makita's proprietary hammer and anvil impact mechanism is manufactured using the best raw materials with the highest quality steel and unique heat hardening process for maximum

MKXDT19Z includes: Tool only.

MKXDT19T Kit includes: XDT19Z Tool, (2) 18V LXT® Lithium-Ion 5.0Ah Battery (BL1850B), 18V LXT® Lithium-Ion Rapid Optimum Charger (DC18RC), and Tool Bag.

Item #	Description	Battery & Charger Included	Ah	Price

Impact XPS® 3" Magnetic Insert Bit Holder

- Provides convenient pick-up and retention of fasteners
- Rare earth magnet increases holding power compared to standard magnets
- C-ring for added insert bit retention
- Two-piece design is engineered to allow the torsion technology to fully activate
- Ideal for use with Makita Impact XPS® Insert Bits

Includes: 1 each 1/4", 5/16" and 3/8" and Nutsetter

Item #	Per Pack	Price per Pack
MKE-01367	1	\$6.97
MKT-05424	10	\$46.04

Impact XPS® Mag Boost

- Up to 10 times more magnetic than standard power bits
- Great for holding screws to the end of the power bit in tight situations and to extend its reach
- Compact and universal fit design allows for use with most common power bits
- Built with 2 rare earth magnets for increased holding power

Item #	Price Each
MKE-01345	\$4.97

Pricing Effective 5/15/2024. Subject to change without notice.

12" Flexible Impact Bit Holder

- Designed exclusively for high-torque impact drivers
- Ergonomic grip for comfort
- Convenient 12" length for those hard to reach places
- Ideal for driving screws in a wide variety of heavy-duty fastening applications including deck building, framing and installing plywood subfloor
- 1/4" hex shank works directly with both Impact Drivers and Drill-Drivers

Item #	Price Each
MKB-51873	\$45.24

3/8" Keyless Chuck Adapter

- Designed to accept round and hex shank bits
- For converting an impact driver into a driver drill
- Steel construction for increased durability
- Accepts bits with up to a 3/8" shank

Item #	Price Each
MK763198-1	\$39.73

Impact XPS® 3 Piece 2-9/16" Magnetic Nutsetter Set

- Powerful magnetization provides convenient pick-up and retention of fasteners
- Lobular design drives along flats to reduce rounding of hex fasteners
- Flat edges at hex opening for full contact with flanged hex head screws
- Ideal for driving hex head nuts and self-tapping screws in a wide variety of applications
- Includes: 1 each 1/4", 5/16" and 3/8" and Nutsetter

Item #	Description	Price
MKE-01432	2-9/16" Magnetic Nutsetter Set, 3 Piece	\$11.47

Pricing Effective 5/15/2024. Subject to change without notice.

18V LXT® Brushless Palm Router

- LXT® technology delivers 380 feet of cutting performance in red oak using a 1/4" (6mm) straight bit at a 5/32" (4mm) depth with a 5.0Ah battery
- Electronic speed control maintains constant speed under load
- On/Off button with separate lock button helps prevent accidental start-up of the tool for user and workpiece protection
- Soft start feature for smoother start-ups and better accuracy
- Slim and ergonomically designed body with rubberized grip for increased comfort & control
- Quick release cam lock system for convenient depth adjustments and base removal/installation
- High visibility base design for improved handling and performance
- Shaft lock for quick and easy bit changes
- Easy-to-read depth scales

MKXTR01Z includes: XTR01Z Tool, Spanner Wrench (781011-1), Spanner Wrench (781039-9), 1/4" Collet (763637-1), 3/8" Collet (763619-3), Straight Guide (122965-7), Template Guide (343577-5), Trimmer Base (196613-4)

MKXTR01T7 includes: All of the above, plus: (2) 18V LXT® Lithium-Ion 5.0Ah Battery (BL1850B), 18V LXT® Lithium-Ion Rapid Optimum Charger (DC18RC), MAKPAC Interlocking Case, X-Large (197213-3), Plunge Base (196094-2), Template Guide 5/8" (344364-5)

18V LXT® 5" Random Orbit Sander, Hook & Loop

- One-touch electronic speed control switch provides fast, medium and low settings
- Pad control system for controlled pad speed upon start-up
- Dust-sealed switch and bearing for longer tool life
- Oversized sealed-ball bearing construction for longer tool life

MKXOB01Z includes: XOB01Z Tool, Dust Bag (166078-4), 5" Round Abrasive Disc, Hook & Loop, 120 Grit (794520-1-1), 5" 8 Hole Backup Pad H/L (743081-8)

Item #	Description	Battery & Charger Included	Orbit	Orbits per minute	Price
MKXOB01Z	18V 5" Random Orbit Sander, Bare Tool	No*	1/8"	7,000/ 9,500/ 11,000	\$139.00

* Battery and charger not included, see page 63.

COMFORT

Ergonomically designed body and grip for increased operator comfort

INNOVATION

Pad brake engineered for reduced free-spin and improved overall finish

PERFORMANCE

Large 1/8" random orbit action engineered for fast sanding and swirl-free finish

SPEED

Three speed settings (7,000/9,500/11,000 OPM) engineered for fast material removal

Pricing Effective 5/15/2024. Subject to change without notice.

18V LXT® 1/4 Sheet Finishing Sander

- Large clamping lever for quick and easy paper installation
- Ergonomically designed rubberized grip for increased comfort and control
- Built-in dust port; easy connection to Makita vacuum system for a cleaner work environment
- Weighs only 3.8 lbs. with battery (battery not included)

MKXOB02Z includes: XOB02Z Tool, Dust Bag (166078-4), Punch Plate (450066-4), (1) Sheet Each 4-1/2" x 5-1/2" Abrasive Paper in 60, 100 and 150 Grit.

*** Battery and charger not included, see page 63.**

COMFORT

Reduced vibration in loaded down operation and ergonomic contoured grip

CONVENIENCE

Corded performance with cordless convenience

DUST MANAGEMENT

Through-the-pad dust collection system with built-in dust port; dust bag and vacuum compatible

PERFORMANCE

Two speed settings (11,000/14,000 OPM) with one-touch electronic speed control

18V LXT® Brushless Jig Saw, D-Handle

- 3 orbital settings plus straight cutting for use in a wide range of materials
- Cuts up to 135 ft. of 1" MDF on a single charge using 5.0Ah battery BL1850B (battery not included)
- Built-in L.E.D. light illuminates the work area
- Large 2-finger variable speed trigger for added convenience with lock-on button
- Electric brake for maximum productivity
- Soft start feature for smooth start-ups
- Built-in dust blower clears the line of cut for increased accuracy
- Base bevels and locks from 0° - 45° left or right for more precise bevel cuts

MKXVJ04Z includes: XVJ04Z Tool, (3) Jig Saw Blades, one each for cutting wood, metal and wood/metal

Item #	Description	Battery & Charger Included	Variable Speed	Strokes per Minute	Price
MKXVJ04Z	18V Jig Saw, D-Handle T-Shank, Bare Tool	No*	Yes	0 - 3,000	\$199.00

36V (18V X2) LXT® Brushless 6-1/2" Plunge Circular Saw

- Makita-Built electronically controlled BL™ Brushless Motor delivers 6,300 RPM for maximum performance and 50% longer run time per charge
- Ideal for cutting large wood panels, other wood materials including melamine and MDF, aluminum, and Corian® with optional, material specific blades (sold separately)
- Close to the wall cutting (11/16") for expanded cutting applications
- Large cutting capacity (2-3/16" at 90°; and 1-9/16" at 45°)
- Bevel capability (-1° to 48°) with positive stops at 22.5° and 45°
- Electronic speed control maintains constant speed under load for smooth cutting
- Soft start feature for smooth start-ups
- Built-in depth stop allows a preliminary first cut of (5/64") 2mm to (7/64") 3mm to be performed prior to cutting through the entire material for clean and splinter-free cutting
- Large 1-7/16" rear dust port directs material away from the operator and easily connects to a vacuum system
- Saw works with other competitive guide rails

MKXPS01PTJ includes: 36V (18V X2) LXT® Brushless 6-1/2" Plunge Circular Saw (XPS01Z), (2) 18V LXT® Lithium-Ion 5.0Ah Battery (BL1850B), 18V LXT® Lithium-Ion Dual Port Charger (DC18RD), 6-1/2" 55T C.T. 36V (18V X2) LXT® Brushless 7-1/2" Dual Slide Compound Miter Saw

MKXSL02Z includes: XSL02Z Tool, 7-1/2" 40T Carbide-Tipped Miter Saw Blade (A-90629), Dust Bag (122852-0), Vertical Vise (122571-8), Extension Wing (322312-4)

- Two 18V LXT® Lithium-Ion Batteries deliver the power and performance of a corded miter saw without leaving the 18V LXT® platform
- The electronically-controlled BL™ Brushless Motor efficiently uses energy to match torque and RPM to the changing demands of the application
- Large dimensional lumber cutting capacity: 2-1/16" x 11-3/4" at 90° and 2-1/16" x 8-3/8" at 45°
- Positive miter stops at: 0°, 15°, 22.5°, 30° and 45° left and right
- Linear ball bearing system engineered to deliver "dead-on" accurate cuts
- Large aluminum base supports large stock for efficient cutting
- Electric brake for maximum productivity
- Direct drive gearbox for increased cutting efficiency and reduced maintenance
- Soft start suppresses start-up reaction for smooth start-ups and longer gear life

Item #	Description	Battery & Charger Included	Arbor	No Load Speed	Price

36V (18V X2) LXT® Brushless 10" Dual-Bevel Sliding Compound Miter Saw with Laser

MKXSL06PT includes: XSL06Z Tool, (2) 18V LXT® Lithium-Ion 5.0Ah Battery (BL1850B), 18V LXT® Lithium-Ion Dual Port Charger (DC18RD), Vertical Vise (122854-6), Dust Bag (122852-0), Triangular Rule (762001-3), Hex Wrench, XSL06 (781044-6), 10" x 5/8" 40T Micro-Polished Miter Saw Blade

- Makita-Built electronically controlled BL™ Motor delivers 4,400 RPM for faster and smoother cutting
- Dual dust collection ports provide excellent dust extraction performance
- Miters 0-60° left and right; bevels 0-48° left and right
- Positive miter stops at: 0°, 15°, 22.5°, 31.6°, 45°, and 60° left or right
- Integrated 4-3/4" tall fence system for increased rigidity and more precise miter and bevel cuts
- Built-in laser clearly indicates line-of-cut whether blade is turning or not; on-off switch and micro-adjustments for precise "left-of-blade" or "right-of-blade" cutting
- Linear ball bearing system engineered to deliver accurate cuts
- Direct drive motor for increased cutting efficiency and reduced maintenance
- Easy one-touch slide lock for convenience
- See-through blade guard system for greater visibility of blade and line of cut
- 3-stage L.E.D. gauges on the tool indicate battery charge levels

- Built-in L.E.D. light illuminates the work area
- In-line fan design provides better tool balance and improved ergonomics
- Filter on blower intake reduces dust being blown through the blower
- Rubberized soft grip provides increased comfort on the job

Item #	Description	Battery & Charger Included	Price
MKXSA01Z	18V High Speed Blower/Inflator, Bare Tool	No*	\$194.00

* Battery and charger not included, see page 63.

MKXSA01Z includes: XSA01Z Tool, High Speed Dust Blower Nozzle, 3 mm (191X11-1), High Speed Dust Blower Nozzle, 7 mm (191X13-7), High Speed Dust Blower Nozzle, 13 mm (191X15-3), High Speed Dust Blower Pinch Valve Nozzle (191X17-9), High Speed Dust Blower Wide Angle Nozzle (191X19-5)

TECHNOLOGY

Makita-built brushless motor delivers up to 447 MPH and 39 CFM

RUN TIME

Up to 55 minutes of run time with 18V LXT® 6.0Ah battery (battery not included)

COMPACT

Compact length at only 7"; ideal for working in tight spaces

APPLICATIONS

4 digitally controlled speeds with 5 nozzles for a wide range of applications

LXT

Pricing Effective 5/15/2024. Subject to change without notice.

18V LXT® Brushless 2 Gallon HEPA Filter Portable Wet/Dry Dust Extractor/Vacuum

MKXCV11Z includes: XCV11Z Tool, Round Wet/Dry HEPA Filter (162518-0), Pre-Filter Set, XCV11Z (199827-4), 5" Black Upholstery Nozzle (458891-7), 7" Black Crevice Nozzle (458919-1), Flexible Anti-Static Hose, 1" x 6.5' (140G04-3)

- Up to 60 minutes of continuous run time using an 18V LXT® Lithium-Ion 5.0Ah battery BL1850B (battery not included)
- L.E.D. battery indicator shows charge level for 18V LXT® Lithium-Ion battery (battery not included)
- Two tools in one; quickly converts from vacuum to blower for increased versatility
- Two speed push button power selection (high/low) for a variety of applications
- Battery compartment keeps the battery (not included) protected from harmful debris on the jobsite
- Carrying top handle stores out of the way and provides increased comfort during transport
- On-board hose and nozzle storage allow for easy and convenient transport
- Quick-release latch for easy removal and disposal of debris from canister

Item #	Description	Battery & Charger Included	Price
MKXCV11Z	18V 2G HEPA Wet/Dry Dust Extractor/Vacuum, Bare Tool	No*	\$224.00
MK162518-0	Replacement Round Wet/Dry HEPA Filter	-	\$27.57
MK199827-4	Replacement Pre-Filter Set	-	\$24.06

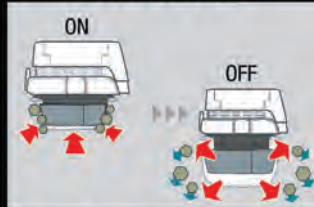

* Battery and charger not included, see page 63.

DUST MANAGEMENT

Efficient HEPA filter captures 99.97% of particulates .3 microns and larger

EFFICIENCY

Filter cleaning system is designed to maintain optimum suction efficiency and longer filter life

PERFORMANCE

Powerful Brushless motor delivers 57 CFM using a 18V LXT® Lithium-Ion battery (battery not included)

PORTABILITY

Compact and portable design; weighs only 10.1 lbs. (shoulder strap not included)

LXT® BRUSHLESS

WÜRTH LOUIS AND COMPANY • www.wurthlac.com • 800-422-4389

18V LXT® L.E.D. Lantern/Flashlight

- Three L.E.D. lighting modes: 360° lantern, 180° lantern or flashlight
- 360° lantern mode provides 620 lumens; 180° lantern mode provides 310 lumens; flashlight mode provides 90 lumens
- 180°-360° lantern lighting allows the user to select between entire work area or specific task illumination
- Up to 11 hours of continuous illumination in 360° lantern mode with a 5.0Ah LXT® battery (battery sold separately)
- Up to 21 hours of continuous illumination in 180° lantern mode with a 5.0Ah LXT® battery (battery sold separately)
- Up to 59 hours of continuous illumination in flashlight mode with a 5.0Ah LXT® battery (battery sold separately)
- Compact and ergonomic design at only 14-3/8" tall

MKDML806 includes: Tool only.

Item #	Description	Battery & Charger Included	Price
MKDML806	18V L.E.D. Lantern/Flashlight, Bare Tool	No*	\$60.55

* Battery and charger not included, see page 63.

COMFORT

Rubberized soft grip provides increased comfort on the job

CONVENIENCE

Metal hang hook swivels 360° and folds away for added convenience

Pricing Effective 5/15/2024. Subject to change without notice.

18V LXT® Tower Work/Multi-Directional Light

- Daylight white L.E.D. produces a clearer light
- L.E.D. lights effectively illuminate work area without the high heat of halogens
- Up to 10 hours of continuous illumination with a 5.0Ah 18V LXT® battery on low (battery and charger not included)
- Up to 3 hours of continuous illumination with a 5.0Ah 18V LXT® battery on high (battery and charger not included)
- Lockable battery compartment
- Convenient handles and shoulder strap for easy transportation

MKDML814 includes: DML814 Tool, Shoulder Strap, Tool Bag.

Item #	Description	Battery & Charger Included	Price
MKDML814	18V Tower Work/Multi-Directional Light, Bare Tool	No *	\$424.00

*** Battery and charger not included, see page 63.**

VERSATILITY

3-mode operation; delivers 3,000 lumens on High, 1,700 lumens on Medium, and 900 lumens on Low

DESIGN

Extends to an overall height of 7-1/4 ft. with a foldable design for quick setup and takedown

CONVENIENCE

Dust and water-resistant construction (IP55 rated) for operation in harsh job site conditions

CONTROL

Three adjustable light heads rotate 180° vertically

Pricing Effective 5/15/2024. Subject to change without notice.

WÜRTH LOUIS AND COMPANY • www.wurthlac.com • 800-422-4389

12V max CXT® Self-Leveling 360° 3-Plane Green Laser

MKSK700GDNAJ includes: SK700GD Tool, 12V max CXT® Lithium-Ion 2.0Ah Battery (BL1021B), 12V max CXT® Lithium-Ion Charger (DC10WD), Magnetic Green Target Plate (LE00823195), Magnetic L-Adapter, SK700 (LE00929104), Inner Tray, SK700 Lasers (8351P4-9), MAKPAC Interlocking Case, Large (197212-5)

- Green line visibility range up to 115' and detectable up to 230' with Makita Laser Detector (sold separately)
- Eccentric base allow for vertical line adjustment while maintaining the plumb point position ($\pm 10^\circ$) for increased simplicity and precision
- Fast self-leveling line stability is achieved in up to 3 seconds for increased productivity
- Self-leveling is correctable up to 4° of slope allowing operation on uneven surfaces
- Integrated pendulum lock enables slope incline applications and provides added protection during transport & storage
- Dust and water resistance with IP 54 rating for increased durability
- Highly protected laser windows are recessed for increased durability
- Rubberized housing over-mold for increased protection
- Simplified two button user interface for ease of operation
- Low laser brightness modes conserve battery power for extended run-time performance
- Multi-function magnetic bracket with integrated $1/4"$ & $5/8"$ threads allow laser attachment to metal surfaces, wood surfaces or tripods

Item #	Description	Battery & Charger Included	Ah	Price
MKSK700GDNAJ	12V Self-Leveling 360° 3-Plane Green Laser Kit	Yes	2.0	\$674.00

ACCURACY

Sharp laser line with $\pm 1/16"$ at 33' for best-in-class accuracy

PRECISION

360° rotating base with fine point adjustment knob

RUN TIME

Makita 12V max CXT® 2.0Ah rechargeable battery provides up to 7 hours of continuous run time

VERSATILITY

3 x 360° laser planes provide reference positions for level, align, plumb and square applications

Pricing Effective 5/15/2024. Subject to change without notice.

Stapler, 18 Gauge, 1/4" Narrow Crown

- "Tool-less" depth adjustment for more precise flush and countersink stapling
- Built-in air duster provides convenient air flow to clear work surface
- Multi-directional exhaust port directs exhaust air away from operator
- Staple reload indicator window alerts the operator when to reload staples
- Housing bumpers protect tool and work surface
- Aluminum body for durability with less weight
- Includes two removable no-mar tips; convenient on tool storage
- Integrated rubber soft grip for operator comfort
- Narrow nose design allows easy stapling access in confined areas
- Ideal for cabinets, shelving, insulation, lattice work, fencing and other woodworking applications
- Minimum recommended air delivery of 1.7 SCFM @ 90PSI
- 3 year warranty

MKAT638A includes: AT638A Tool, Pneumatic Nailer Oil (181434-7), Safety Glasses, (2) No-Mar Tip, Air Fitting, Tool Case

Item #	Description	Price
MKAT638A	Stapler, 18 Gauge, 1/4" Narrow Crown, 1/2" - 1-1/2"	\$159.00

CONTROL

2-mode selector switch for control over stapling operation

CONVENIENCE

Reversible belt hook allows the tool to remain close

EFFICIENCY

Bottom-loading magazine allows user to quickly load staples (1/4" crown from 1/2" to 1-1/2" long)

POWER

Efficient motor design offers leading power performance

1-3/8" Pin Nailer, 23 Gauge, 1-3/8"

MKAF353 includes: AF353 Tool, Pneumatic Nailer Oil (181434-7), Safety Glasses, (2) No-Mar Tip, Air Fitting, Hex Wrench, Tool Case

- Side, drop-in loading magazine holds up to 130 nails for maximum efficiency
- Built-in air duster provides convenient air flow to clear work surface
- Double, 2-finger trigger for user convenience
- Rear exhaust port directs exhaust air away from operator and work surface
- Includes two removable no-mar tips with sightlines for increased pinning accuracy; convenient on tool storage
- Easy to clear nose for fast and easy nail extraction should a jam occur
- Narrow nose design allows easy nailing access to tight areas and angles
- Magazine self adjusts to the proper fastener length when loaded
- Reversible belt hook allows the tool to remain close
- Housing bumpers protect tool and work surface
- Integrated rubber soft grip for operator comfort
- Ideal for installing moulding, chair rail, tacking trim, glass retainers to doors, cross pinning dowels & joints, cabinets, paneling, glazed bead, craft work, picture frame assembly, window beading, rattan furniture, and a wide variety of other woodworking applications
- Minimum recommended air delivery of .8 SCFM @ 90PSI
- 3 year warranty

Item #	Description	Price
MKAF353	1-3/8" Pin Nailer, 23 Gauge, 5/8" - 1-3/8"	\$169.00

CONTROL

Nail lock-out mechanism protects tool and work surface from nail-less blank fires

CONVENIENCE

23 gauge pins create minimal nail holes for a faster and more professional looking finish

DURABILITY

Aluminum body, magazine, and cylinder for added strength

ERGONOMICS

Lightweight design, soft grip, and slim profile for easy operation

Brad Nailer, 18 Gauge, 5/8" - 2"

MKAF506 includes: AF506 Tool, Pneumatic Nailer Oil, (2) No-Mar Tip, Air Fitting, Safety Glasses, Tool Case

- Powerful motor drives a range of 18 gauge brad nails from 5/8" to 2" into hard or soft wood applications
- Aluminum body, magazine and cylinder for strength and durability; weighs only 2.9 lbs.
- Cast and machined nose piece for precise contact
- Non-marring rubber nose and bumpers protect the wood's surface from being scratched or damaged
- Reversible belt hook allows the tool to remain close
- Dual nail reload indicator window alerts the user when to reload nails to avoid blank drives
- Multi-directional exhaust port directs exhaust air away from operator
- Housing bumpers protect tool and work surface
- Side loading magazine holds up to 100 nails for maximum efficiency
- Integrated rubber soft grip for operator comfort
- Ideal for trim work, baseboard and crown molding installation, flooring and other woodworking applications
- Minimum recommended air delivery of 1.5 SCFM @ 90PSI
- 3 year warranty

Item #	Description	Price
MKAF506	Brad Nailer, 18 Gauge, 5/8" - 2" - 1-1/2"	\$119.00

ACCURACY

Narrow nose design allows easy nailing access in confined areas

CONVENIENCE

Built-in air duster provides convenient air flow to clear work surface

DESIGN

"Tool-less" easy to clear nose for fast and easy nail extraction

PRECISION

Easy to use "tool-less" depth adjustment dial for a wide variety of finish applications

Straight Finish Nailer, 16 Gauge, 1" - 2-1/2"

MKAF601 includes: AF601 Tool, Pneumatic Nailer Oil, (2) No-Mar Tip, Air Fitting, Safety Glasses, Tool Case

- Built-in air duster provides convenient air flow to clear work surface
- 2-mode selector switch for control over nailing operation
- Multi-directional exhaust port directs exhaust air away from operator
- "Tool-less" easy to clear nose for fast and easy nail extraction
- Housing bumpers protect tool and work surface
- Magnesium body offers durability and less weight
- Includes two removable no-mar tips; convenient on tool storage
- Powerful motor design drives standard 16 gauge, straight finish nails from 1" to 2-1/2" in length
- Reversible belt hook allows the tool to remain close
- Integrated rubber soft grip for operator comfort
- Narrow nose design allows easy nailing access in confined areas
- Ideal for trim work, baseboard and crown molding installation, flooring and other woodworking applications
- Minimum recommended air delivery of 2.7 SCFM @ 90PSI
- 3 year warranty

Item #	Description	Price
MKAF601	Straight Finish Nailer, 16 Gauge, 1" - 2-1/2"	\$199.00

CONVENIENCE

Rear-loading magazine for quick loading of nails from 1" to 2-1/2" long

EFFICIENCY

Nail lock-out mechanism protects tool and work surface

POWER

Efficient motor design offers leading power performance

PRECISION

"Tool-less" depth adjustment for precise flush and countersink finish

Angled Finish Nailer, 34° 15 Gauge, 1-1/4" - 2-1/2"

MKAF635 includes: AF635 Tool, Pneumatic Nailer Oil, (2) No-Mar Tip, Air Fitting, Safety Glasses, Tool Case

- Powerful motor drives 15 gauge "DA" style angled finish nails from 1-1/4" to 2-1/2"
- Built-in air duster provides convenient air flow to clear work surface
- "Tool-less" easy to clear nose for fast and easy nail extraction
- 2-mode selector switch for control over nailing operation
- Multi-directional exhaust port directs exhaust air away from operator
- Includes two removable no-mar tips; convenient on tool storage
- Reversible belt hook allows the tool to remain close
- Housing bumpers protect tool and work surface
- Integrated rubber soft grip for operator comfort
- Rear lock-and-load magazine holds up to 100 nails for maximum efficiency
- Narrow nose design allows easy nailing access in confined areas
- Ideal for trim work, baseboard and crown molding installation, hanging doors, exterior fascia and soffits, and other woodworking applications
- Minimum recommended air delivery of 3.1 SCFM @ 90PSI
- 3 year warranty

Item #	Description	Price
MKAF635	Angled Finish Nailer, 34° 15 Gauge, 1-1/4" - 2-1/2"	\$219.00

CONTROL

Nail lock-out mechanism protects tool and work surface from nail-less dry fires

DURABILITY

Magnesium body and aluminum magazine for added strength

POWER

Efficient motor design offers leading power performance

PRECISION

"Tool-less" depth adjustment engineered for more precise flush and countersink nailing

Compact Air Compressor, Electric

- Powerful 1/6 maximum horsepower induction motor provides up to 125 PSI
- Lightweight design (23.1 lbs.) for increased job site portability
- Low noise for operator comfort; ideal for indoor use
- Low AMP draw reduces incidents of tripped breakers at start-up
- Roll cage construction for extra protection of pump and motor assembly
- Oil-less pump designed for maintenance-free operation
- Copper discharge tubing for increased heat dissipation
- Lever-handle ball valve tank drain improves upon standard petcock design for easier maintenance and air tank release
- Universal brass coupler for increased durability and reduced corrosion
- Large pressure gauges for easier visibility of tank and hose pressure
- Ideal for case and base installation, trim and finish carpentry, cabinet and furniture makers, and more
- 1 year warranty

MKAC001 includes: AC001 Tool, 1/4" Universal Quick Coupler, Male (447013-E)

Item #	Description	Price
MKAC001	Compact Air Compressor, 1G Tank	\$219.00

COMFORT

Low noise for operator comfort; ideal for indoor use

DURABILITY

Roll cage construction for extra protection of pump and motor assembly

PERFORMANCE

Powerful 1/6 maximum horsepower induction motor provides up to 125 PSI

PORTABILITY

Lightweight design (23.1 lbs.) for increased job site portability

Quiet Series Compressors, Oil-Free

MKMAC210Q

- Runs at a lower RPM (1,750) resulting in longer motor and pump life
- Oil-free dual-piston pump designed for maintenance-free operation
- Lightweight design for increased job site portability
- Quick 90 second full tank fill from empty
- Low AMP draw reduces incidents of tripped breakers at start-up
- Large pressure gauges for easier visibility of tank and hose pressure
- Built-in thermal overload for additional motor protection
- Ideal for case and base installation, trim and finish carpentry, cabinet and furniture makers, and more
- 1 year warranty

Both units include: MAC100Q or MAC210Q Tool, 1/4" Universal Quick Coupler, Male (447013-E)

Item #	Description	Tank	dB	Price
MKMAC100Q	Quiet Series Compressor, 1/2 HP	1 Gallon	58	\$239.00
MKMAC210Q	Quiet Series Compressor, 1 HP	2 Gallon	60	\$314.00

CONVENIENCE

Cord wrap for convenient AC power cord storage

DESIGN

Complete roll-cage construction design

EFFICIENCY

Lever-handle tank drain for easy air tank release

QUIET SERIES

Pricing Effective 5/15/2024. Subject to change without notice.

WÜRTH LOUIS AND COMPANY • www.wurthlac.com • 800-422-4389

1-1/4 HP Palm Router, 1/4" Shank

- Variable speed control dial (10,000 - 30,000 RPM) to match the speed to the application
- Quick release cam lock system for convenient depth adjustments and base removal/installation
- Soft start feature for smooth start ups
- High visibility base design for improved handling and performance
- Shaft lock for quick and easy bit changes
- Durable flat top design for added convenience when changing bits
- 1 year warranty

Item #	Description	Price
MKRT0701C	1-1/4 HP Palm Router	\$149.00

MKRT0701C includes: RT0701C Tool, Trimmer Base (196613-4), 1/4" Collet (763637-1), Straight Guide (122965-7), Spanner Wrench (781039-9) and (781011-1)

ACCURATE

Smooth rack-and-pinion fine depth adjustment system

COMFORT

Ergonomically designed body for increased comfort and control

DURABILITY

Heavy duty aluminum motor housing for increased durability

POWER

1-1/4 HP* motor delivers 6.5 AMP for improved performance

1-1/4 HP Palm Router Kit, 1/4" Shank

MKRT0701CX3 includes: RT0701C Tool, Trimmer Base (196613-4), Plunge Base (196094-2), Tilt Base (198987-9), Offset Base (196093-4), Straight Guide (122965-7), Trimmer Guide (122703-7), Dust Extracting Attachment, Fixed Base (195559-1), Dust Extracting Attachment, Plunge Base (194733-8), 1/4" Collet (763637-1), Spanner Wrench (781039-9) and (781011-1)

Item #	Description	Price
MKRT0701CX3	1-1/4 HP Palm Router Kit, Multiple Bases	\$299.00

- Variable speed control dial (10,000 - 30,000 RPM) to match the speed to the application
- Smooth rack-and-pinion fine depth adjustment system for more precise settings
- Slim and ergonomically designed body for increased comfort and control
- Quick release cam lock system for convenient depth adjustments and base removal/installation
- Accepts industry standard template guides
- Electronic speed control maintains constant speed under load
- Soft start feature for smooth start ups
- High visibility base design for improved handling and performance
- Base can be removed quickly to install other bases (plunge, tilt and offset)
- Heavy duty aluminum motor housing engineered for increased durability
- Shaft lock for quick and easy bit changes
- Durable flat top design for added convenience when changing bits
- Non-marring high-durability base insert for increased work piece protection
- Easy-to-read depth scales
- Double insulated
- Ideal for routing small profiles, dovetailing, door hinges and more
- 1 year warranty

PLUNGE BASE

- Easy-to-use fine depth adjustment with 3 preset depth stops for added precision
- Conveniently located plunge lock lever for operator convenience
- Removable clear plastic shield helps protect the operator from airborne debris

TILT BASE

- Allows different profiles when using the same router bit
- Ideal for trimming laminated boards and other thin materials
- Fits compact routers models RT0700C and RT0701C

OFFSET BASE

- Ideal for counter tops, kitchen and bath sink cutouts

OFFSET BASE

Offset base allows routing in hard-to-reach areas and as close as 3/4" to the wall

PLUNGE BASE

0" - 1-3/8" plunge depth capacity for easy penetration into workpiece

TILT BASE

Tilt base for routing at different angles with positive stops at -30° and 45°

VERSATILE

Fixed base accepts industry standard template guides

2-1/4 HP Knob or D-Handle Router, VS, 1/4" and 1/2" Shank

MKRF1101 includes: RF1101 Knob-Handle Router, 1/4" Collet with Nut (193214-9), 1/2" Collet (763643-6), Wrench 27 (193234-3)

- Low noise (81dB) for operator comfort
- Electronic speed control maintains constant speed under load
- Soft start feature for smooth start-ups
- Rugged aluminum motor housing with small 3-1/4" diameter for easy handling
- Durable flat top design for stability when changing bits
- Bits are installed/removed with two identical size wrenches
- All-ball bearing construction for longer tool life
- Front knob can be placed in two locations for left or right handed operators
- Large calibrated depth control ring for easy depth adjustment
- Externally accessible brushes for greater serviceability
- 1 year warranty

Item #	Description	Price
MKRF1101	2-1/4 HP Knob-Handle Router, Variable Speed	\$265.00
MKRD1101-D	2-1/4 HP D-Handle Router, Variable Speed	\$309.00

MKRD1101-D includes: RD1101 D-Handle Router, 1/4" Collet with Nut (193214-9), 1/2" Collet (763643-6), Wrench 27 (193234-3)

COMFORT

D-handle models have a locking trigger switch for operator control and comfort

CONTROL

Variable speed models feature a speed control dial (8,000 - 24,000 RPM)

CONVENIENCE

Cam-lock lever for fast, easy depth adjustment and removal of base

POWER

Powerful 11 AMP motor delivers 24,000 RPM for smooth and clean routing

3-1/4 HP Plunge Router, Variable Speed, 1/4" and 1/2" Shank

- Electronic speed control maintains constant speed under load
- Variable speed control dial enables user to match the speed to the application
- Soft start feature for smooth start-ups
- Electric brake for increased productivity
- Built-in twin L.E.D. lights illuminate the work area for increased visibility
- Oversized ball bearing construction for longer tool life
- Ergonomic rubberized handles with built-in large two-finger switch for added control and use
- Conveniently located plunge lock lever for efficient operation
- Shaft lock for quick and easy bit changes
- "Tool-less" template guide system for quick and easy installation and removal
- Lock-on trigger switch for continuous operation
- Built-in fan with labyrinth construction minimizes dust from entering the tool for longer tool life
- Easy-to-read depth scales
- Chip deflector engineered to direct chips away from the operator
- Durable flat top design for stability when changing bits
- Double insulated
- 1 year warranty

MKRP2301FC includes: RP2301FC Tool, 1/2" Collet (763622-4), 1/4" Collet (763803-0), Extend Depth Adjustment Knob (158980-5), Spanner Wrench (781030-7)

Item #	Description	Price
MKRP2301FC	3-1/4 HP Plunge Router	\$399.00

CAPACITY

0" - 2-3/4" plunge depth capacity for easy penetration into work space

POWER

Powerful 15 AMP motor delivers up to 22,000 RPM for smooth routing

PERFORMANCE

Linear ball bearings for smooth plunge action and superior performance

PRECISION

Quick plunge depth adjustment with three presets depth stops

5" Random Orbit Sander, with Tool Case

- Smooth and fast sanding with 3.0 AMP motor (12,000 OPM)
- Large 1/8" random orbit action for fast and super smooth sanding
- Efficient through-the-pad dust collection system for a cleaner work environment
- Dust-sealed switch minimizes contamination
- Conveniently located on/off switch for easy one-handed operation
- 1 year warranty

Item #	Description	Price
MKBO5030K	5" RO Sander with Case, 5" 8 Hole H/L	\$99.00

MKBO5030K Includes: 5" Random Orbit Sander (BO5030), Dust Bag (166078-4), Plastic Tool Case (183782-0), Dust Bag Nozzle (416063-0)

COMFORT

Rubberized palm grip and low vibration for improved operator comfort

CONTROL

Pad control system helps prevent gouging and swirl marks

EFFICIENCY

Dust is extracted through 8 holes under the pad and collected in a dust bag

PRODUCTIVITY

Oversize ball bearing for extended tool life

5" Random Orbit Sander, Variable Speed, with Tool Case

MKBO5041K Includes: 5" Random Orbit Sander (BO5041), Dust Bag (166078-4), Dust Bag Nozzle (416063-0), Tool Case

- Smooth and fast sanding with 3.0 AMP motor
- Ergonomic rubberized palm grip and handle for improved operator comfort
- Large 1/8" random orbit action for fast and super smooth sanding provides a swirl-free finish
- Efficient through-the-pad dust collection system for a cleaner work environment
- Pad brake for maximum productivity
- High capacity dust collection system with built-in vacuum port adapter for improved dust collection
- Oversized sealed-ball bearing construction for longer tool life
- Double insulated
- 1 year warranty

Item #	Description	Price
MKBO5041K	5" RO Sander, Variable Speed with Case, 5" 8 Hole H/L	\$144.00

COMFORT

Adjustable front handle allows for sanding in corners and confined areas

CONTROL

Variable speed control dial (4,000-12,000 OPM) to match the sanding speed to the material

CONVENIENCE

Large two-finger trigger switch with conveniently located lock-on button

PERFORMANCE

Pad brake engineered for increased performance and reduced gouging

6" Random Orbit Sander, Variable Speed, with Tool Case

MKBO6050J Includes: BO6050 Tool, 120 Grit Disc (794610-0-1), 6" Round Sanding Backing Pad, Hook & Loop, Soft (197314-7), Dust Extracting Attachment (143326-8), Pad Protector (456127-8), Side Handle (153489-2), MAKPAC Interlocking Case, Large (197212-5)

- 7/32" orbit diameter provides a swirl-free finish
- "Tool-less" backing pad change enables quick pad change to meet application
- Efficient through-the-pad dust collection system with built-in dust port for a cleaner work environment
- Lock-on slide trigger switch for added convenience of continuous operation
- Removable pad protector protects work surface and backing pad
- Smooth soft start operation
- "Tool-less" dust extraction channel attachment
- Connectable to Makita vacuum cleaners
- 1 year warranty

Item #	Description	Price
MKBO6050J	6" RO Sander, Variable Speed with Case, 6" 8 Hole H/L	\$419.00

ACCURACY

2-mode switch for "random orbit" and "random orbit with forced rotation"

COMFORT

Ergonomically designed barrel grip and side handle

PERFORMANCE

6.6 AMP motor rotates pad 1,600 - 6,800 OPM for smooth finish sanding

SPEED

Uses hook-and-loop abrasive discs for quick changes

Belt Sander, Variable Speed

MK-9920

MK9903 includes: 9903 Tool, 3" x 21" Abrasive Belt, 80 Grit (742308-3-1), Dust Bag (122591-2)

MK-9920 includes: 9920 Tool, 3" x 24" Abrasive Belt, 80 Grit (742312-8C-1), Dust Bag (122591-2)

MK9404 includes: 9404 Tool, 4" x 24" Abrasive Belt, 80 Grit (742322-9-1), Dust Bag (122591-2)

- Powerful 8.8 AMP motor; only 85dB
- Dust bag for a cleaner work environment
- Long 16.4 ft. power cord for easier maneuverability
- Sands wood or metal and removes paint and rust
- Double insulated
- Ideal for woodworkers, carpenters, furniture makers, floor installers, deck builders and general contractors who require a best-in-class belt sander
- 1 year warranty

Item #	Description	Price
MK9903	3" x 21" Belt Sander, Variable Speed, with Case	\$339.00
MK-9920	3" x 24" Belt Sander, Variable Speed, with Case	\$349.00
MK9404	4" x 24" Belt Sander, Variable Speed, with Case	\$369.00

ACCURACY

Auto-tracking belt system tracks belt without adjustment

CONVENIENCE

Large front grip for operator comfort

EFFICIENCY

Variable speed control dial (690 - 1,440 ft./min.) to match the speed to the application

PERFORMANCE

Innovative design for sanding flush to wall with nose and side of sander

6-1/2" Plunge Circular Saw Kit, with Stackable Tool Case and 55" Guide Rail

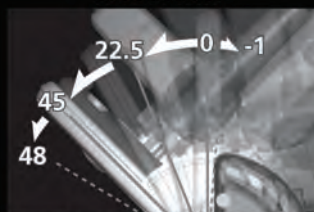

MKSP6000J1 includes: 6-1/2" Plunge Circular Saw (SP6000J), 6-1/2" 48T C.T. Plunge Saw Blade (B-07353), Hex Wrench (783203-8), MAKPAC Interlocking Case, X-Large (197213-3), 55" Guide Rail (194368-5)

Item #	Description	Price
MKSP6000J1	6-1/2" Plunge Circular Saw Kit with MAKPAC Case and 55" Guide Rail	\$519.00

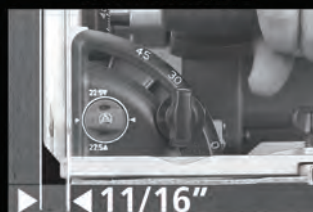

- 12 AMP motor with variable speed control dial (2,000 - 5,200 RPM) for optimum performance in a variety of materials
- Large cutting capacity (2-3/16" at 90° and 1-9/16" at 45°)
- Bevel capability (-1 to 48°) with positive stops at 22.5° and 45°
- Ideal for cutting large wood panels and other wood materials in confined areas
- 1-1/2" OD dust port directs material away from the operator and connects to a vacuum system
- Electronic speed control maintains constant speed under load for smooth cutting
- Built-in current limiter helps prevent motor burnout
- Soft start feature for smooth start-ups
- Easy-to-set depth adjustment with large scale
- Smooth and convenient plunge release lever for operator comfort
- Dual front and rear bevel supports provide additional rigidity for precise and accurate bevel cuts
- Large 1-7/16" rear dust port directs material away from the operator and easily connects to a vacuum system
- 55" Guide Rail interacts with the saw base to provide smooth, perfect, dead-on straight or bevel cutting
- Saw base is attachable to other guide rail systems in the market
- 1 year warranty

ACCURACY

Straight or bevel cutting; blade enters material on the same cutting line

CONVENIENCE

Close-to-wall cutting; only 11/16" away from wall

PRECISION

Depth stopper for splinter-free cutting enables to easily cut a preliminary groove at a depth of 1/16"

Pricing Effective 5/15/2024. Subject to change without notice.

10" Dual-Bevel Sliding Compound Miter Saw with Laser

MKLS1019L includes: LS1019L Tool, Vertical Vise (122854-6), Dust Bag (122852-0), Triangular Rule (762001-3), 10" x 5/8" 60T Micro-Polished Miter Saw Blade, Hex Wrench (781044-6)

- 10" slide miter saw with the crown molding cutting capacity (6-5/8" nested) of a 12" miter saw
- Dual dust collection ports provide excellent dust extraction performance
- Innovative direct drive motor and guard system is engineered for increased vertical cutting capacity (5-1/4")
- Linear ball bearing system engineered to deliver "dead-on" accurate cuts
- Powerful 15.0 AMP direct drive motor requires less maintenance and delivers 3,200 RPM
- Soft start suppresses start-up reaction for smooth start-ups and longer gear life
- Miters 0-60° left and right; bevels 0-48° left and right
- Positive miter stops at: 0°, 15°, 22.5°, 31.6°, 45°, and 60° left or right
- Electronic speed control maintains constant speed under load for smoother, higher quality cutting
- Integrated upper and lower 4-3/4" tall fence system offers added rigidity for more precise miter and bevel cuts
- Built-in laser clearly indicates line-of-cut whether blade is turning or not; on-off switch and micro-adjustments for precise "left-of-blade" or "right-of-blade" cutting
- Easy-to-read dual bevel scale for more precise adjustments
- Easy blade changes for increased efficiency
- Oversized trigger switch for better fit, added comfort and easier operation
- Easy one-touch slide lock for convenience
- Simple 90° turn-of-the-knob miter angle lock/unlock mechanism
- 1 year warranty

Item #	Description	Price
MKLS1019L	10" Dual-Bevel Sliding Compound Miter Saw with Laser	\$739.00

ACCURACY

See-through blade guard system for greater visibility of blade and line of cut

CAPACITY

6-5/8" Crown Molding (vertically nested) and 5-1/4" baseboard (vertical) cutting capacity

CONVENIENCE

In-front bevel lock for convenient operation

DESIGN

Unique 2-Steel Rail Sliding System offers a reduced footprint and operation flush against a wall

LASER

DXT
Deep and xAct cutting Technology

Pricing Effective 5/15/2024. Subject to change without notice.

WÜRTH LOUIS AND COMPANY • www.wurthlac.com • 800-422-4389

Plate Joiner, with Tool Case

MKPJ7000 includes: PJ7000 Tool, 4" Carbide Tipped Blade for Plate Joiner (A-95118), Angle Guide (123148-2), Dust Bag (123150-5), Set Plate (415579-2), Lock Nut Wrench (782401-1), Tool Case (821509-7)

- Powerful 5.6 AMP motor delivers 11,000 RPM for quick, precise cutting in a variety of woods
- Cast aluminum pivot fence with three positive stops at 0°, 45° and 90°
- Large and easy-to-operate cam locks for angle guide and fence adjustments
- Large top grip handle for improved handling
- "Tool-less" blade cover and shaft lock for fast and easy blade changes
- Designed for making strong plate joints in a minimum amount of time
- Double insulated
- 1 year warranty

Item #	Description	Price
MKPJ7000	Plate Joiner, with Tool Case	\$229.00
MKA-95118	Plate Joiner Blade, 4" Carbide Tipped	\$39.46

ACCURACY

Rack-and-pinion vertical fence system engineered for accurate adjustments

COMFORT

Slim and ergonomic body design for added comfort

CONVENIENCE

Cast aluminum pivot fence with three positive stops at 0°, 45° and 90°

SPEED

Six depth settings with one-touch stops for the most common biscuit sizes

3-1/4" Planer, with Tool Case

MKKP0800K includes: KP0800 Tool, 3-1/4" Planer Blade, 2/pk (D-46246), Blade Gauge (123010-1), Socket Wrench (782209-3), Guide Rule (165581-2), Tool Case (824892-1)

- Two-blade cutter head with 17,000 RPM delivers smooth finish and fast stock removal
- Easy blade setting system for fast blade installation
- Equipped with double edge carbide blades for added performance
- Rigid die-cast aluminum housing with all-ball bearing construction for longer tool life
- High power-to-weight ratio; weighs only 5.7 lbs.
- Machined aluminum and balanced planer drum for reduced vibration and added durability
- Lock-on button for continuous operation
- Click depth adjustment knob with easy-to-read scale with settings from 0" to 3/32" (0.1mm increments) for precise depth adjustment
- Ergonomically centered balance with rubberized front and rear handles for added comfort
- High quality poly-v belt provides added durability
- Double insulated
- 1 year warranty

Item #	Description	Price
MKKP0800K	3-1/4" Planer, with Tool Case	\$199.00
MKD-46246	3-1/4" Planer Blade, Double Edge, Pack of 2	\$14.06
MKD-17239	3/14" Planer Blade (2) with Set Plate, Double Edge	\$23.65

CAPACITY

Planes up to 3-1/4" wide and 3/32" deep

CONVENIENCE

Spring-loaded stand elevates the base

POWER

6.5 AMP motor delivers more output power

PRECISION

Precision machined aluminum base

Variable Temperature Heat Gun Kit with LCD Digital Display

- Push-button temperature control (122 - 1,202°F) for precise control over a wide variety of applications with LCD temperature reading
- Slide switch sets three air flow settings (cooling, low, high) for greater versatility
- Push-button temperature control increases by 50°F increments for exact temperature adjustment
- Compact 2.0 lb. design features a rubberized pistol grip handle and an integrated rear stand
- Ideal for vehicle wraps and tinting, stripping lacquer, paint and varnish, thawing frozen pipes, loosening tile and putty, re-melting adhesive, removing stickers, waxing and de-waxing, bending plastic pipes and sheets, and more
- Compatible with various nozzle accessories for increased versatility (additional accessories sold separately)
- 1 year warranty

MKHG6530VK includes: HG6530 Tool, 1-3/8" Glass Protection Nozzle (PR00000028), 1-3/8" Wide-Slot Nozzle (PR00000029), 1-3/8" Reflector Nozzle (PR00000030), 1-3/8" Reduction Nozzle (PR00000031), Tool Case

Item #	Description	Price
MKHG6530VK	Variable Temperature Heat Gun, LCD Digital Display	\$157.00

CONVENIENCE

Built-in tether notch (tether sold separately)

DESIGN

Rubberized handle and integrated rear stand

PRECISION

Push-button temperature control (122-1,202°F) for precise control over a variety of applications

VERSATILITY

Slide switch sets three air flow settings (cooling, low, high) for greater versatility
