

The **FUTURE** of Corbel Installations!

NEW - Magnetic Click Corbels!

Innovative Magnetic Corbel System:

- Modern Corbels with Versatile Appeal** - Combining wood, metal, and magnets, the Click Corbel offers a unique blend of aesthetic appeal and functional design.
- How Are Magnetic Click Corbels Different from Traditional Corbels?**
 Designed to be purely decorative, the corbels embedded magnets serve only to hold it in place. The robust bracket system underneath securely supports up to 375 lbs of overhang, ensuring that the mantel or countertop is firmly in place and your magnetic corbels are free from any visible holes or hardware.
- Easy Corbel Installation and Adjustments** - The magnetic attachment system revolutionizes the way corbels are installed. Without the need for direct fasteners or drilling, the magnetic corbels “click” into place effortlessly, saving time and reducing the risk of damage during installation. This design also allows for easy post-installation adjustments, allowing you to change corbels without any hassle.
