Modified Pan	Truss
Modified Truss	Trim
Round Washer	Undercut

Drive Guide

Phillips-Slot
Combination/utility drive found primarily in truss head machine screws.

AW
Patented drive system that entirely eliminates spin out (cam-out) while providing greater power transfer, longer tool life, and positive engagement that a 3" screw can be held without holders.

Combo (Recex®)
Easy driving square/phillips combination drive provides higher torque and reduces spinout.
Recommended that square drive used for driving and square/phillips used for screw removal.

Square
Square drive improves engagement, reducing spin out in power driving.

Phillips
Most common drive for wood applications and drive drills.

Pozidrive
Designed to provide higher torque in hand driving operations.

Thread and Point Guide

Fine Thread General woodworking use, primarily with solid woods and hardwood. Requires pre-drilling and pre-countersinking.	
Hi-Lo Thread "All-purpose" thread. Designed for greater holding and less strip-out in all woods.	
Coarse Thread Used in particleboard and soft woods. Best results require pre-drilling and countersinking.	
Turbo Thread Virtually eliminates pre-drilling and countersinking. With features like nibs and a patented serrated tooth thread for less driving torque and reduced splitting. Recommended for real wood only - not for use in man made materials.	

ASSY® Patented "Asymmetrical / Symmetrical" thread geometry and 30° point locates screw precisely, drives fast, with 40% higher fracture torque than ordinary screws.	
ASSY® Plus Patented "ASSY" thread design plus a drill bit cutter head for clean, fast, non-splitting drive into all woods and near edges.	
Type 17 Auger Point Sharp slotted point acts as drill to eliminate pre-drilling for quicker, faster installation.	
Double Auger Fast, stress-free driving; minimizes pre-drilling in hardwoods.	
Flat Screw Point Machine screws. Used to attach decorative hardware and in RTA applications.	

FASTENER OVERVIEW

STRONGER THAN STEEL! How Strong are our screws?

Heat-treating makes our screws tough enough to drive into red oak without a pilot hole, tough enough to resist the forces trying to blow apart the driver bit recess as the screw is driven, tough enough to keep the driver bit from stripping out the recess, and tough enough to resist breakage when a load is placed on a screwed joint. Go into most hardware stores and home centers and the screws you find will be poorly heat-treated, or not heat-treated at all!

Company	Screw Size	Threads per Inch	Major Diameter	Minor Diameter	Minimum Breaking Torque (Lb. per Sq. Inch)
Würth	#5	13	.120 - .130	.080 - .086	17
Competitor A	#5	14	.122 - .128	.072 - .078	18

- The information above was taken from company web sites or other published data*
- All dimensional and test data based on standard Deep Thread screws*

Würth uses only the finest quality 1018-1022 carbon steel to manufacture their fasteners. Our special heat treating process ensures maximum strength and breaking torque. All Würth Screws are manufactured to meet or exceed I.F.I. (International Fastener Institute) standards. We manufacture the majority of our fasteners in our own factories to ensure consistency and to control quality.

A ASSEMBLY SCREWS

Flat Head Square Drive, Coarse Thread Without Nibs, Regular Point

- 3/4" and 1" lengths are threaded

fully - all other sizes are threaded
2/3's from bottom of the screw

- Case hardened, Lubricated
- Uses #2 Square Drive bits
- Box quantities as shown on right
- Sold by the box

ASSY: Without Nibs, With Sharp 30° Point

Ecofast ASSY: With Nibs, With Sharp 30° Point

ASSY Plus: With Nibs, With Type 2 Drill Point

Flat Head AW® Drive, ASSY Thread With or Without Nibs, Sharp 30° Point or Drill Point

- Patented high tech ASSY thread design provides faster driving and 40% stronger hold
- Patented AW drive system delivers superior torque while virtually eliminating cam-out
- All screw boxes are packaged with one AW insert drive bit
- Thin, lubricated shank reduces wood splitting
- Case hardened, Zinc
- Box quantities as shown below
- Sold by the box

Bit included in each box!

Serrated thread for quick start and reduced splitting

Washer Head Recex (Combo Phillips & Square) Drive Turbo Thread, Regular Point

- Round Washerhead typically used in soft woods to prevent head from sinking into wood
- Patented serrated tooth turbo thread allows for quick starting, reduced splitting, and less drive torque. Used in all woodworking applications: assembly, face frame, slides, hinges and hardware
- 1" lengths are threaded fully - all other sizes are threaded 2/3's from bottom of the screw
- Case hardened, Lubricated
- Uses #2 Square Drive bits to insert; #2 Phillips Drive bits can be used for aftermarket adjustment
- Box quantities as shown below
- Sold by the box

Truss Head Phillips Drive, Fine Thread (2/3 Thread) Needle Point

For use with Metal Studs

- #8 gauge needle point for light metal studs and sheetmetal
- Large truss head provides large bearing surface and hides rough screw hole edges
- Case hardened, finishes listed below
- Uses #2 Phillips Drive bits
- Box quantities as shown below • Sold by the box

Length x Gauge	Finish	Box Qty	Item #	Quick Code
2-1/2" x 8	Zinc with White Head	2,000	WUWS8X214TPFNPB	L39140
2-1/2" x 8	Zinc with Zinc Head	2,000	WUWS8X212TPFNZB	L39160

Truss Head Phillips Drive, Fine Thread (Full Thread) #2 Drill Point

For use with Metal Studs

- #2 drill point for use on heavier gauge metal studs. Eliminates the need for pilot hole/pre drilling studs
- Large truss head provides large bearing surface and hides rough edges
- Case hardened, finishes listed below
- Uses #3 Phillips Drive bits
- Box quantities as shown below • Sold by the box

Length x Gauge	Finish	Box Qty	Item #	Quick Code	Bulk Qty	Item #	Quick Code

Truss Head, Coarse Thread (1/2 Thread) Needle Point

For use with Wood Studs

- Deep thread for secure fastening to wood studs
- Large truss head provides large bearing surface and hides rough edges
- 1/2" head allows cabinet to "float" for final adjustment
- Case hardened, finishes listed below
- Uses #3 Phillips Drive bits
- Box quantities as shown below • Sold by the box

Trim-It Screws, Square Drive, Twinfast Thread, Sharp Point

- Normally used for fastening trim moldings or jams
- Extremely small head (7/32") is hardly seen; can be countersunk and puttied over
- Type "A" point is very sharp and eliminates pre-drilling in most materials
- Case hardened, Black
- #6 screws use #1 Square Drive bits; #8 screws use #2 Square Drive bits
- Box quantities as shown below
- Sold by the box

Bit not included

TaperLock® Bit Holder

- Unique patented design uses a tapered spindle to firmly hold any bit in place
- The harder you pull, the tighter it gets
- Also features a one-touch auto-lock for easy release of the bit with one hand

Item #
FCTAPERLOCK

Right Angle Drill Attachment, Magnetic, 1/4" Bit Mount with Quick Change Chuck

- Suitable for use with electric drills and battery operated driver drills
- Specially hardened steel enables maximum torque, with a maximum speed of 2,000 RPM's
- Secure hold and 360° step-free adjustable handle
- Compact design is perfectly suited for screwing in cramped and hard-to-reach places

Item #
WR06149000

Universal Bit Set, 90 Piece, Magnetic

- Includes standard drive styles and safety screws, 1/4" drive magnetic ratchet adapter and sturdy metal box
- Comes in foam insert to keep the bits nicely organized

Item #
WR0614250500

Flipbolt, Tool-less Draw Bolt

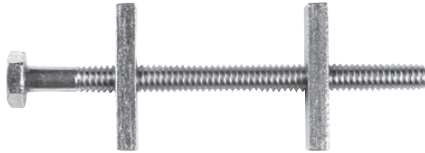

- 4-1/2" long
- Place Flipbolt in cutout (template available), hand tighten nut, Flipbolt tightens when lever is pushed
- Jig works with both sizes of Flipbolt

Corner Braces, Plastic Glue Boxes

- Made of high impact, specially compounded plastic material
- Can be stapled through without shattering and will also accept glue
- Off-center screwholes for easier screwgun access into corner of the cabinet
- Braces are 3-5/8" L and 3/4" D

- **A. Has no tabs; B. Has tabs extending out; C. Has tabs projecting up**
- Screws not included
- Sold by the each

Item #	Color	Box Qty

“Keku” Push-In Fittings

- Designed for fastening panels to frames
- Components to be mounted are pushed on from the front eliminating the need for free space at the top or side as required by suspension fittings
- Panel element locks into the frame element as it is pushed home
- Fits 32mm system

NOTE: Order male and female separately. Sold by the each.

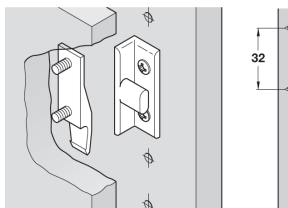

Item #	Type
HA262.50.368	Male
HA262.50.359	Female

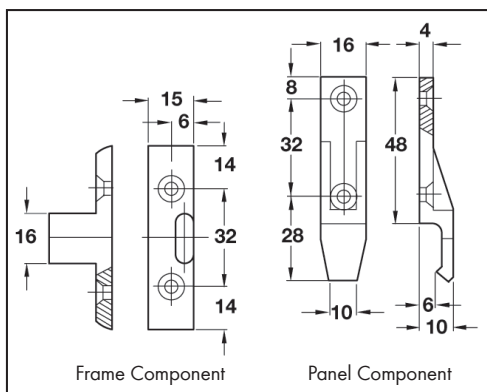

“Keku” Suspension Fittings

- Pre-assembly of sub-frames and cabinet components such as speaker fronts, wainscoting, radiator covers or wherever access is needed after installation
- System consists of a frame and panel element, both made out of a nylon
- If required, suspended panels can be simply released at anytime without special tools
- Fits 32mm systems

NOTE: Order male and female separately. Sold by the each.

Item #	Type
HA262.49.356	Male
HA262.49.365	Female

POST HANGERS/RETAINING CLIPS

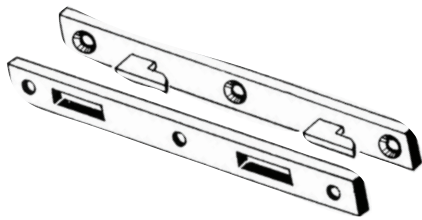

Surface Mounted Post Hangers

- For board widths 4" to 7"; for larger widths, 2 units on each corner may be used for increased rigidity
- Surface mounted brackets require no mortising or machining
- Takes #6 flathead screws (not included)
- Sold by the set of 4 males and 4 females

Item #	Length
HA271.05.906	3-7/8"

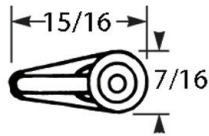

Post Hangers

- For beds, booths, removable partitions, shelf brackets, etc.
- Screws not included (recommended 3/4" x 8 flathead)
- Sold by the set of 4 males and 4 females

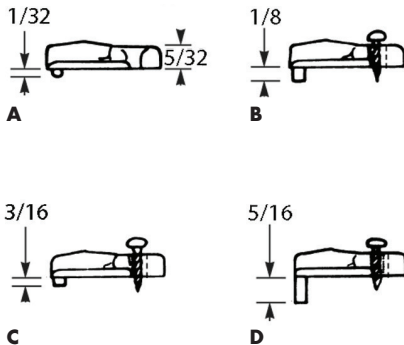

Item #	Length	Width
SY74-4	4"	11/16"
SY74-5	5"	11/16"
SY74-6	6"	11/16"

Glass & Panel Plastic Retaining Clips

- Holds panels in place and prevents rattling by maintaining a soft pressure against the panel or glass
- Uses #5 flat head or oval head screw
- Sold by the each

	Clear Item #	Tan Item #	Walnut Item #	Application Type

**Fastmount Panel Mounting System
Very Low Profile Clip Set**

- Perfect for mounting removable, thin wall panels and facings
- No special installation tools are required, designed to be installed by screw or adhesive
- Set includes: (1) female clip, (1) male clip & (1) stainless steel screw
- Sold per set

Item #	Dimensions	Pull Out Force
SGVL-03	1.102"Dia. X 0.299"H	11 lbs.

Wall Panel Bracket

- Hanging wall panels just got a whole lot easier and completely invisible!
- All you need to do is cut a 2" x 2" hole in the sheetrock over a stud, install this Wall Panel bracket, route into the back of your panel, and hang it

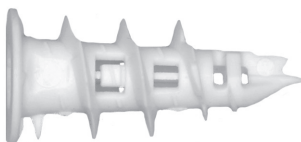

Item #	Weight Capacity
SHBWP-3	75 lb

NOTE: Mfr recommends using construction adhesive between panel and sheetrock for added stability.

**For dimensional line drawing,
see our website.**

Zinc

Nylon

Drywall Anchor, Multi-Drive

- Install into 3/8" to 1" wallboard
- Patented drive can be installed with Pozi, AW or Torx bits
- Minimal space requirement behind sheet (only 15mm)
- Use with sheet metal or drywall screws - screws are removable (not included)
- Sold in full boxes of 200 only

Item #	Material	Length x Gauge
WR0903252	Zinc	1-3/8" x 6
WR0903251	Nylon	1-3/8" x 6

Plastic Biscuits, C-20 Plastic

- Made of translucent C-20 plastic, environmentally friendly polypropylene
- For joining solid surface materials
- No glue required
- Sold by the box

Item #	Biscuit Size	Dimensions	Box Qty
CS156110	C-20 Plastic	23 mm W x 60mm L	250

Tenso P-14 Connection Fittings

- Self-clamping connector with three functions: alignment, clamping and connecting
- High level of clamping force allows work pieces to be glued without the need for screw clamps or pressure
- Additional option of preloading the connector prior to glue applications enables use for all angles and miters and which reduces the amount of force when connecting the workpieces
- Requires use of Zeta P2 Joiner
- Sold by the box

Item #	Description	Box Qty
CS145425	P-14 Tenso Fittings	300 Sets

Clamex P-14 Detachable Fittings

- Detachable connector with very small opening
- Extremely fast insertion of the connectors without tools
- Versatility for all angles and joining situations
- Sold by the box

Item #	Key Opening Size	Box Qty
CS145346	6mm	300 Sets
CS145356	6mm	1,000 Sets
