

JB21P

LINE BORING MACHINE

FEATURES

- 21 spindles driven by steel gears
- Quick change chucks (21 pcs)
- Pneumatic boring head stroke
- Precision mechanical digital readout for desired boring depth
- See through PVC guard to cover boring units for added safety
- Spring loaded part hold down
- Precision slide bushing linear bearings
- Back fence & cross fence with scale position indicator
- 2 flip stops on back fence

SPECIFICATIONS

Number of drilling spindles	21 (10 LH & 11 RH)
Motor	2 HP
Distance between spindles	32mm
Spindle chuck	10mm
Table size	43 5/16" x 15 3/4"
Table height from floor	33 3/8"
Max. depth of stroke	3 3/8" (85mm)
Max. boring depth from edge	8"
Back fence	74 3/4"
Back fence stops	2 pcs
Cross fence stops	2 pcs
Air requirement	70 PSI
Machine dimensions	75" x 30 3/4" x 58 1/4"
Net weight	375 lbs.
