

SR-750

PNEUMATIC OVER ARM PIN ROUTER

Precision Spindle

Double Taper Collets

Workpiece Holding System
(Optional)

FEATURES

The Cantek SR-750 overarm pin router has a solid welded steel frame construction with a cast iron tilting table. The large solid table is fitted with a steel fence and the spindle to column clearance is 30". The 7.5 HP motor drives 10,000 rpm and 20,000 rpm from a flat belt and pulley. Guide pin depth stops can be preset in 6 positions and are easily changed from the machine face.
