

## THE **NOMARR** DIFFERENCE

### NOMARR INSTALLATION INSTRUCTIONS

Note this installation document should not be considered a specific recommendation for your particular application. Federal Brace cannot provide installation guidelines to meet the particulars of every application. This document should be considered a help sheet that provides considerations about the general characteristics of a particular type of product and installation.

NoMarr is Designed to protect various surfaces, metal, wood and plastics to name a few. NoMarr can be used for many applications and industries. Federal Brace offers NoMarr both with and without fasteners. Using NoMarr is quick and easy, just follow the simple four-step process below.

1. Place the fastener through the hole in the Nomarr. The NoMarr should be positioned between the head of the fastener and the surface you want to protect.

2. Using a socket or driver tool, tighten the fastener down completely. Do not remove NoMarr until the fastener is in its final position. See Spec Sheet for NoMarr sizing and compatible fasteners. Use NoMarr with screwdrivers for slip protection.

3. Grab the tab and firmly pull the NoMarr off with one fluid motion.

4. Repeat the process for all fasteners. Thanks to NoMarr, your surfaces are now protected.
