

# Edge Tech II

## INSTRUCTIONS FOR APPLYING NEW SANDPAPER DISC ON EDGETECH II

When sandpaper disc is replaced, it is necessary to remove all adhesive residue from aluminum disc with acetone or lacquer thinner.

After new sandpaper disc has been adhered to EdgeTech II aluminum disc, it should be rolled for maximum adhesion.

### Note:

During prolonged runs, it is always best to change height of EdgeTech disc periodically to avoid overheating sandpaper and maximize the life of the paper.
