T04029002-W01	Finger Lite™ Hardware Pack	25 sets/11lbs	\$12.71

Patent No. 4,947,937

The System

This simple system consists of interlocking tambour slats with a choice of interlocking handles. These parts are simply cut to the desired length and then interlocked one to the next.

The use of larger, vertically-opening tambour doors is now feasible by using our unique spring tension lifting mechanisms. Systems are available to control tambour doors up to 36" wide by up to 78" tall. The use of two mechanisms will control doors up to 48" wide by up to 78" inches tall.

A fascia profile is also available for use as either a stile or rail. It is simply attached to the end or top panel with screws.

The Colors

The beauty of the product lies in the choice of colors. A true stainless steel look is now available in a plastic tambour. It is also available in silver metallic and semi-gloss black.

Cut-to-size, assembled or custom colors available.

The Applications

This is a versatile tambour system with applications in many industries, including:

- **Kitchens** - our stainless steel transfer foil finish is perfect for appliance garages or full-height corner cabinet applications.
- **Office Furniture** - the product is ideal for large storage/file cabinets and in desk "hoteling" systems.
- **Trade Show Exhibits** - our durable pvc tambours are perfect for this high-traffic application.
- **Recreational Vehicles** - ideal where weight/space issues are critical.
- **Medical Cabinets** - perfect for cabinets exposed to chemicals and cleaning agents.
- **Commercial Cabinetry** - heavy duty construction and easy to clean, Fennel tambour doors are ideal for public spaces, restaurants or shops.

TAMBOUR DOORS, TRACK SYSTEMS & PANELS

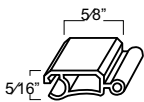

FENNCL

THE ELEMENTS

Interlocking Tambour Slats Style NP 5605

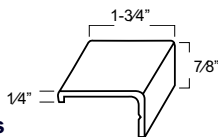

- Colors:
 - Stainless steel (foil)
 - Silver metallic (foil)
 - Semi-gloss black
- Slats are supplied 8' long
- Maximum recommended width (slat length) of the tambour door is 47-1/4"

Fascia Profile

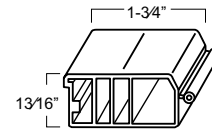

Style NP 5895 - Straight 8' Lengths

- Colors:
 - Stainless steel (foil)
 - Silver metallic (foil)
 - Semi-gloss black
- 8' long profile
- Can be cut to the desired length and used as a stile or rail
- Helps conceal the space created where the tambour turns in a frameless cabinet
- simply screwed or stapled to the end or top panel

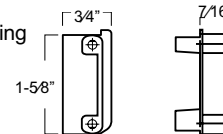

Interlocking Lock Handle Style NP 5923

- For doors that must be locked
- Colors:
 - Stainless steel (foil)
 - Silver metallic (foil)
 - Semi-gloss black
- Supplied 8' long and interlocks with the first tambour slat
- Can be machined for a lock mechanism
- Cut 7/8" shorter than the tambour slats, and end caps (NP3547/48) are then inserted

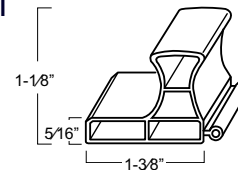

Style NP 3547/NP 3548

- Right and left end caps for Interlocking Lock Handle Style NP 5923
- Colors:
 - Black
 - Grey

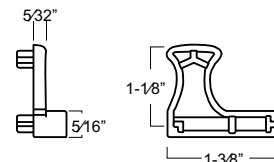

Interlocking Handpull Style NP 5982

- For non-locking doors
- Colors:
 - Stainless steel (foil)
 - Silver metallic (foil)
 - Semi-gloss black
- Supplied 8' long and interlocks with the first tambour slat
- Cut 3/4" shorter than the tambour slats, and endcaps (NP3620/21) are then inserted

Style NP 3620/NP 3621

- Right and left end caps for Interlocking Handpull Style NP 5982
- Colors:
 - Black
 - Grey

NP4043GR	Grey	50 pieces	\$1.36

Lifting Mechanisms

This system is key to the successful use of larger tambour doors operating in a vertical application.

The systems allow for easy operating of tambour doors with vertical heights from 24" to 78". Typically, a door shorter than 24" will not require the system.

When using a single system, tambour door slat lengths should not exceed about 36". Wider doors may require two lifting mechanisms.

The system requires a shelf in the top of the cabinet for mounting of the main system parts. No functional elements are visible outside the cabinet.

Individual lifting mechanisms are available to control vertical door heights of up to 27-1/2", 55" and 78" by widths of up to 36" (slat length).

Also works great with our wood tambour doors.

Lifting Mechanisms (for vertically opening doors)

Style NP 4575

- Will control tambour doors up to 36" slat length x 27 1/2" tall
- Slat lengths 36" to 48" require two mechanisms

Lifting Mechanisms (for vertically opening doors)

Style NP 4555

- Will control tambour doors 36" slat length x 55" tall
- Slat lengths 36" to 48" require two mechanisms

Lifting Mechanisms (for vertically opening doors)

Style NP 4561

- Will control tambour doors up to 36" slat length x 78" tall
- Slat lengths 36" to 48" require two mechanisms
