

**August 23, 2024**

**No PFAS in Quin Global Adhesives**

**To Whom It May Concern:**

Quin Global does not formulate any Quin branded products with Per- or Polyfluoroalkyl Substances (PFAS) and we do not intentionally add any of those substances to our adhesives. We can certify that specific product numbers are not formulated with PFAS and none are intentionally added.

With Kind Regards,

Tim Widtfeldt

Product & Technical Manager
