

# SAW & ROUTER COMBINATION MACHINES

## YOUR ONE STOP SHOP

The SR5 & SR5U are ideal for shops doing extensive cutting, and dado or rabbet routing. The SR5 and SR5U can be changed from a saw to a router in under a minute while delivering an accuracy of 1/64" straight and square.

**MADE IN THE USA**

*This photo is shown with a stand, wheels, hold down bar and a dust kit which are optional accessories*

Includes an interchangeable motor carriage with rotating saw for vertical and horizontal cutting. A floating router motor provides a consistent cut depth both vertically & horizontally

Our [MID-WAY Fence®](#) allows for processing smaller panels at waist level. The SR5 & SR5U provide the ideal solution for shops with limited space.

*Ask about our V-grooving package!*
